Business Tax Break!

**Buy a new vehicle now and receive
a massive tax break!**

The Federal Government has just announced a stimulus package for business with a tripling of a tax break announced on December 12th 2008, giving business an effective 9% saving on expenditure to purchase new assets or upgrade existing assets.

The tax break involves a one off bonus deduction for businesses that acquire a new asset or upgrade an existing asset used to carry on business from December 13 2008 to December 31st 2009.

The bonus deduction is an addition to the usual deductions claimed under the capital allowance regime. Please check with your accountant for details on this generous tax break.
